Week of [date]

Announcements

What should we know that doesn't require deep discussion?

collection of prices of new and resale houses located in the metropolitan areas of india

the amenities provided for each house

the real houses in the metropolitan areas of india one can predict the final price of house in these region

these implies that
the law of one
price does not
hold in the indian
housing market

hence the different
metropolitan
house market
operates
city level quarter
the data covering
the period to
2007--2011

it is found that relative price levels among various metropolitan cities in india
